KAISER'S HOSTS TAKE RAILROAD FROM ALLIES

VON MACKENSEN'S VALIANT WARRIOR DRIVE RUSSIANS FROM IMPORT-ANT POSITIONS

FRENCH DEAD PILED HIGH ON SOMME BATTLE GROUND

RUMANIANS MAKE PROGRESS ON ONE SECTOR BUT FAIL AT OTHER POINTS

(By Associated Press)

Virtually the entire Constanza-Tchernovoda railway in Dobrudja is in the hands of Gen. Von Mackensen's forces. This is apparent from the Russian official report, admitting the evacuation of Medjide, which is approximately twenty miles from Constanza and thirteen miles from Tchernovoda, where only one bridge spans the Danube. London says the Somme front situation was little changed over night. Paris says there has been no infantry action along the French lines in the Somme, but says a spirited artillery duel has been fought south of the river.

Serians have made new gains in the campaign for Monastir, according to Paris, stopping the German and Bulgarian counter attacks and then taking the offensive and capturing several front trenches.

French Dead Piled High

Berlin, Oct. 24.—In an attempt to break through the German lines in the Somme sector today, the British and French used a great number of troops in the attacks. The war office announced that the assault broke down with heavy losses and a defeat so severe, that all along the front the Allies' dead are lying in one row after another. South of the Somme the French attack and with similar results.

Rumanians Forge Ahead.

Bucharest, via London, Oct. 24.—The Rumanians have attacked the entire Oituz front near the Transylvanian-Romanian border and captured ten machine guns and several hundred prisoners.

Germans Capture a Town.

Berlin, Oct. 24.—Capture of the Rumanian town of Raslava in the Dobrudja region on the Danube, below Tchernovoda, is announced. Medjide, on the Tchernovoda-Constanza railroad, has also been captured. Von Mackensen's army has taken prisoners more than 6,700 Rumanians and Russians.

Constanza and Medjide Fall.

Petrograd, Oct. 24, via London.—The occupation of Constanza and Medjide in Dobrudja by the forces of the Central Powers is announced. Under hostile pressure the Russians and Rumanians have retired to the heights on the north of these places, the statement says.

Von Hohenlohe Succeeds Stuerghk.

London, Oct. 24.—Prince Count Von Hohenlohe has assumed the office of Austrian minister of the interior, says a Vienna dispatch through Reuter's Exchange. The dispatch from Rome stated that Hohenlohe was appointed to succeed the late Count Stuerghk.

Notable British Advance

Aside from the operations in the Dobrudja another British smash at the German line in the Somme region in France which netted them more than a thousand yards of trenches east of Guedecourt and Les Boeufs and carried their front a step nearer the Bapaume-Perrone road is the most notable incident for the British of the fighting on any of the fronts.

HEALTH CANNOT BE PURCHASED IS CONTENTION

SURGEON GEN. OF U.S. SAYS CO-OPERATION OF COMMUNITIES NECESSARY

(By Associated Press)

The best health of the army is frequently gained at the army's college in Washington by practicing maneuvers in an outer zone where Americans and British troops meet and exchange each other on the field of battle. Two top command posts are playing in turn while a doctor measures the ground estimates time required for movement and refueling. A secretary records the various commands and scores the results. Those in the photographs are from left to right: Lieutenant Colonel J. A. Shipton, Major L. Wahl, Colonel George H. Cameron, Lieutenant Colonel E. D. Anderson and Lieutenant Colonel Henry Jervis.

ASKS FOR REMOVAL OF COUNTY REGISTRARS

(By Associated Press)

Cincinnati, Oct. 24.—The question whether health is purchasable came up today's session of the American Public Health association when W. C. F. Key, assistant surgeon general of the United States Public Health Service, delivered an interesting address.

After declaring that a public health program for cities is in reality nothing more or less than a complete plan for communal existence, Dr. Key unfortunately, health has been and considered in the past solely as a medical problem and the pendulum has been enthusiastically swung so far that health is almost regarded as an artificial state to be achieved and maintained solely through the intervention of medical safeguards. With entire conscientious the health warden of cities has been committed solely to physicians, those who by training have been taught to consider the pathological in human life, the symptomatology and evidences of disease rather than the great basic

EIGHTY DIRIGIBLES OF MONSTER SIZE BEING BUILT BY GERMANY

GERMANY'S ONLY CHANCE IS IN AIR ATTACKS

MORE THAN 200 SUBMARINES AND FOUR LARGE ZEPPELINS HAVE BEEN LOST LATELY

(Continued on Page Seven)

New York Oct. 24.—Eighty dirigibles are being assembled in Germany to great wind over London, according to a special addressed to the Herald from London today. The Germans wish to wreck the city. It is said the collection of fortifications will be used to protect the city. It is said.

Germany's more battleships and cruisers become the zeppelin raids on England, the greater and more frequent becomes the promise of the pro-Germanists.

London, Oct. 24.—From with each of the bases of its bases of its bases, Koenig Zeppelin has decided to will send a fleet of eight dirigibles to London.

Whether these dirigibles ever get to the air or not, the British have been sent to the results of things. The German people still know little in the present destruction of London for which they are waiting with impatience. If not eighty, they will be fully satisfied with a fleet of 100 to do the job.

No one William L. Wood, a Yorkshire man who after passing over 100 of the recent four years of his life in Germany, has been repatriated and returned to his old home at Haverfordwest, Wales.

No Hope for Germany.

"This last few months I have seen wounded soldiers and those fit to return for Germany now that there are no more men left, who could fight it out, not the Germans made up to now," he says. "That night big Zeppelins

The decree on ordering was handed down in federal court by Judge Frank A. Youmans at Ft. Smith, who also named Arthur G. Smith, the receiver, as special master commissioner in charge of the carrying out of the orders of the court. The decree was in the suit of Superior Savings & Trust company of Cleveland, O., vs. Ft. Such bonds have not matured, but under a provision of the trust deed which secures them, any decree under the trust deed against the property operates to mature the bonds.

Items of interest and other obligations which the court finds have defaulted, bring the total claims against the road to \$8,962,760. The court orders that unless the
